Chicago, Illinois 60604

Dear Ms. Evison:

SUBJECT: Unilateral Administrative Order  
Albion-Sheridan Landfill Superfund Site  
Albion, Michigan

Staff of the Michigan Department of Environmental Quality has reviewed the Unilateral Administrative Order for the Albion-Sheridan Township Landfill Superfund site. Our comments are as follows:

1. All references to the Michigan Department of Natural Resources (MDNR) should be changed to the Michigan Department of Environmental Quality (MDEQ).
2. Page 12, Paragraph 19: The MDEQ recommends that some form of bentomat be used in conjunction with the flexible membrane liner to help meet requirements of Act 641.
3. Page 15, Paragraph 32: Does an approval with modifications mean the Respondent should amend the workplan or other deliverable before proceeding with any actions on-site?
4. Page 17, Paragraph 36: The Respondents should also identify someone in their project team who will act as the on scene coordinator, who will be responsible for overseeing field activities, as well as be able to make field decisions (ie. any changes/deviations from the workplan or design documents).
5. Page 17, Paragraph 34: Please include the prefinal (95%) design report as part of the major tasks and deliverables described in the Remedial Design workplan.
6. Page 23, Paragraph 48: Please include any meeting minutes as one of the items to be included in the progress reports.

Ms. Leah Evison

7. Page 25, Paragraph 54: The MDEQ requests three copies of all documents be submitted.
8. Page 12, Paragraphs 18 - 19: Some lead in should be present between paragraphs 18 and 19, possible paragraph 13. The transition between the paragraphs is very confusing.

If you have any questions or would like to discuss anything included in this letter, please feel free to contact me.

Sincerely,

Kim Sakowski
